Home Watch so You Can Travel With Peace of Mind

Don't take risks with your home or property when you're away.

Whether it's for a few days or you're a snowbird gone for several months, Commissionaires will ensure your residence is secure in your absence.

Our professionally trained staff will ensure that your home is secure and looks lived in as long as you are away.

Standard home insurance may not cover damage incurred while a house is vacant, unless it is regularly inspected (typically every three days) and documented.

Commissionaires' Home Watch service provides you with scheduled, customized checks specific to your needs.

Secure Your Home With Home Watch

New homeowners may appreciate Home Watch services while their home is under construction to check progress, contractor presence, etc. Commissionaires will check your home and report to you as frequently as you require.

Commissionaires will watch your home and can perform the following checks with customization:

- Vary lighting and drapes; collect mail, flyers and newspapers
- Inspect and ensure all systems are operational (heating and cooling; hydro; water and pipes)
- Check for damages (broken windows; blocked drains)
- Customize a home check schedule for you, depending on insurance requirements
- Provide reports and/or photos when and how you want them
- Work with your alarm monitoring company

Home Security Alarms Need Back-up

Even the best 24/7 alarm systems require a back-up if the alarm goes off when you are out.

Commissionaires can provide you with peace of mind with our alarm response service that's both affordable and reliable.

Our experienced mobile team is trained to respond to every emergency situation. When every second counts, trust us to respond in person, 24/7.

The Commissionaires mobile response team will:

- Enter your home during an alarm when others may be afraid to do so.
- Perform thorough external and internal inspections, prepare an incident report and then re-secure your home.
- Coordinate with police as required (e.g., to carry out a break and entry investigation).
- Stay at your home after an alarm call until your home is secure.
